THE MARK

Three things carry the brand, and they always appear together in the monogram: the **A and V**, set in Cinzel and overlapped so they read as one shape; the **mountain ridge**, a single gold line rising from the A's apex; and the **peacock feather**, whose quill follows the V's right stroke.

The feather is the only ornament. It carries the one flash of colour in the identity and it earns that by being the only thing in the mark that is not a letter or a line. Everything else is cream, gold and the deep forest green the whole system sits on.

Cinzel gives the name its Roman capitals. Montserrat carries IMMOBILIEN and the tagline, letterspaced wide so the two typefaces never compete.

The one rule that matters. The logo is artwork, not a layout. Place it, scale it proportionally, and leave it alone.

SEVEN LAYOUTS

Pick by the space you have, not by preference. Stacked is the default. Horizontal is for headers and anything wider than it is tall. The monogram alone is for avatars, favicons and stamps.

CLEAR SPACE AND MINIMUM SIZE

CLEAR SPACE

Keep a margin of **X** on all four sides, where X is the cap height of the A in AUGUSTE. Nothing enters that band: no type, no rule, no photo edge, no other logo. Every supplied file already has X baked into its viewBox, so placing the file flush against a box still leaves the margin standing.

DASHED LINE = THE EDGE OF THE SUPPLIED FILE, X BEYOND THE ARTWORK

MINIMUM SIZE

LAYOUT	PRINT	SCREEN
stacked	25 mm	120 px
stacked tagline	30 mm	150 px
horizontal	40 mm	180 px
horizontal tagline	45 mm	200 px
monogram	8 mm	32 px
monogram simple	8 mm	32 px
wordmark	30 mm	140 px

Below 64 px, swap to **monogram simple**. The multicolour feather turns to mud at that size; the one-colour silhouette keeps the eye readable.

SIX COLOUR MODES

Two full-colour modes and four single-colour ones. The single-colour modes exist for embossing, engraving, stamps, fax-grade print and anywhere a second ink costs money. They are not a style choice.

MODE	LETTERS	RIDGE, RULES, TAGLINE	FEATHER	INTENDED BACKGROUND
full-dark	cream	gold	peacock / teal / gold	green
full-light	green	gold	peacock / teal / gold	white or cream
1c-cream	cream	cream	silhouette	dark
1c-white	white	white	silhouette	dark
1c-black	black	black	silhouette	light
1c-gold	gold	gold	silhouette	either

DO AND DON'T

Do not stretch or squash

Scale the logo proportionally, always.

DON'T

DO

Do not recolour

Use one of the six supplied colour modes.

DON'T

DO

Do not add effects

No drop shadow, glow, bevel or gradient.

DON'T

DO

Keep the contrast

Cream on green, green on cream. Never cream on gold.

DON'T

DO

DO AND DON'T, CONTINUED

Do not rotate

The logo sits level. No angles, no arcs.

DON'T

DO

Do not outline

The mark is solid. Never hollow it out into a keyline.

DON'T

DO

Do not sit the logo on a busy area

Place it on a calm field, or use the green panel.

DON'T

DO

Respect the minimum size

Below 150 px wide, drop the tagline; below 64 px use the simple monogram.

Before any print run. The CMYK column is an approximation computed from sRGB, not a measured separation. Proof it in Affinity against Coated FOGRA39. #062014 sits very close to black on uncoated stock — ask the printer whether a spot colour or a rich-black build serves the job better.

IMAGERY

Photography is calm, wide and unpeopled. Architecture at golden hour, deep green planting, soft haze on distance. Grade towards forest green, cream and gold; pull saturation down rather than up.

Always leave one third of the frame quiet for type.

Never a stock-looking handshake, a key close-up, or a sky oversaturated into cyan.

Watermark with the monogram at 9 % opacity, bottom-right, never across the subject.

Placeholder. The backgrounds in this kit were generated procedurally from the brand tokens, not photographed. Replace them with real photography before launch; the prompts to commission or generate them are in assets/inbox/README.txt.
